Please note:

All contributions quoted are the total amounts due to the Scheme.

If you are entitled to a subsidy, the portion you will have to pay will be lower after the employer's portion is subtracted.

For illustrative purposes only, the tables below reflect the portion of the total contribution you would have to pay if you receive a 60% subsidy. This was determined by taking into consideration the SALGBC maximum capping of R3 557.65 that will be effective until 30 June 2014. You will need to calculate your contribution if your subsidy is different, taking into consideration the maximum capping.
