About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
Discovery Health Rate (DHR)	This is a rate we pay for healthcare services from hospitals, pharmacies, healthcare professionals and other providers of relevant health services.
Emergency medical condition	An emergency medical condition, also referred to as an emergency, is the sudden and at the time, unexpected onset of a health condition that requires immediate medical and surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy. An emergency does not necessarily require a hospital admission. We may ask you for additional information to confirm the emergency.
Find a healthcare provider	Find a healthcare provider is a medical and provider search tool which is available on the Discovery app and website www.discovery.co.za .
Prescribed Minimum Benefits	In terms of the Medical Schemes Act of 1998 (Act No. 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of: An emergency medical condition A defined list of 271 diagnoses A defined list of 27 chronic conditions. To access Prescribed Minimum Benefits (PMBs), there are rules defined by the Council for Medical Schemes (CMS) that apply: Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit (PMB) conditions The treatment needed must match the treatments in the defined benefits You must use Designated Service Providers (DSPs) in our network. This does not apply in emergencies. However even in these cases, where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised. If you do not use a DSP we will pay up to 80% of the Discovery Health Rate (DHR). You will be responsible for the difference between what we pay and the actual cost of your treatment. If your treatment doesn't meet the above criteria, we will pay according to your plan benefits.

How you are covered from the KeyCare Casualty Benefit

If you are on the KeyCare Plus Plan, you have cover for one casualty visit a year at a casualty unit in the KeyCare Hospital Network. The casualty unit must contact us to get casualty authorisation to make sure we pay your claims correctly. You are limited to one casualty visit for each person on the plan a year. You have to pay an upfront amount of R425 to the casualty unit for each person needing care for an event. We pay the rest of the casualty unit's account from your Hospital Benefit, up to a maximum of 100% of the Discovery Health Rate (DHR).

The Casualty Benefit covers:
